

# Is your Dental Practice Audit Ready?

**Take This Quick 10-Question IPAC Compliance Self-Assessment!**

**If you answer 'No' to even ONE question, your practice may be at risk of non-compliance.**

**Answer YES or NO to the following questions:**

1

Do you have a dedicated hand hygiene sink in each clinical area, separate from the reprocessing area?

☐ Yes ☐ No

2

Are alcohol-based hand rub (ABHR) dispensers (70-90%) available at all patient care areas?

☐ Yes ☐ No

3

Are your sterilization areas properly separated into "dirty" and "clean" zones with one-way workflow?

☐ Yes ☐ No

4

Are your ultrasonic cleaners and sterilizers tested at the required intervals (weekly ultrasonic efficacy test & daily sterilizer cycle monitoring)?

☐ Yes ☐ No

5

Are staff wearing the appropriate personal protective equipment (PPE) for every procedure, including masks, eyewear, and gloves?

☐ Yes ☐ No

6

Are all patient care areas, including dental chairs, cleaned and disinfected between every patient visit?

☐ Yes ☐ No

7

Are dental unit waterlines being purged for at least 2 minutes at the start of the day and between patients?

☐ Yes ☐ No

8

Are your dental handpieces, air/water syringes, and ultrasonic scalers sterilized after every patient use?

☐ Yes ☐ No

9

Do you have a written IPAC policy manual, including staff training records, safety data sheets, and equipment maintenance logs?

☐ Yes ☐ No

10

Have all staff received IPAC and reprocessing training within the last year, with attendance documented?

☐ Yes ☐ No
