

IPAC LEAD AS AN EDUCATOR!

Identify various learning needs and methods

Develop strategies to address learning needs to accomplish the intended learning goals (mentorship, lecture style, problem-based learning, collaborative learning, etc)

Create educational material relevant content to meet learning objectives (lecture, facilitated discussion, learning through practical activities, etc).

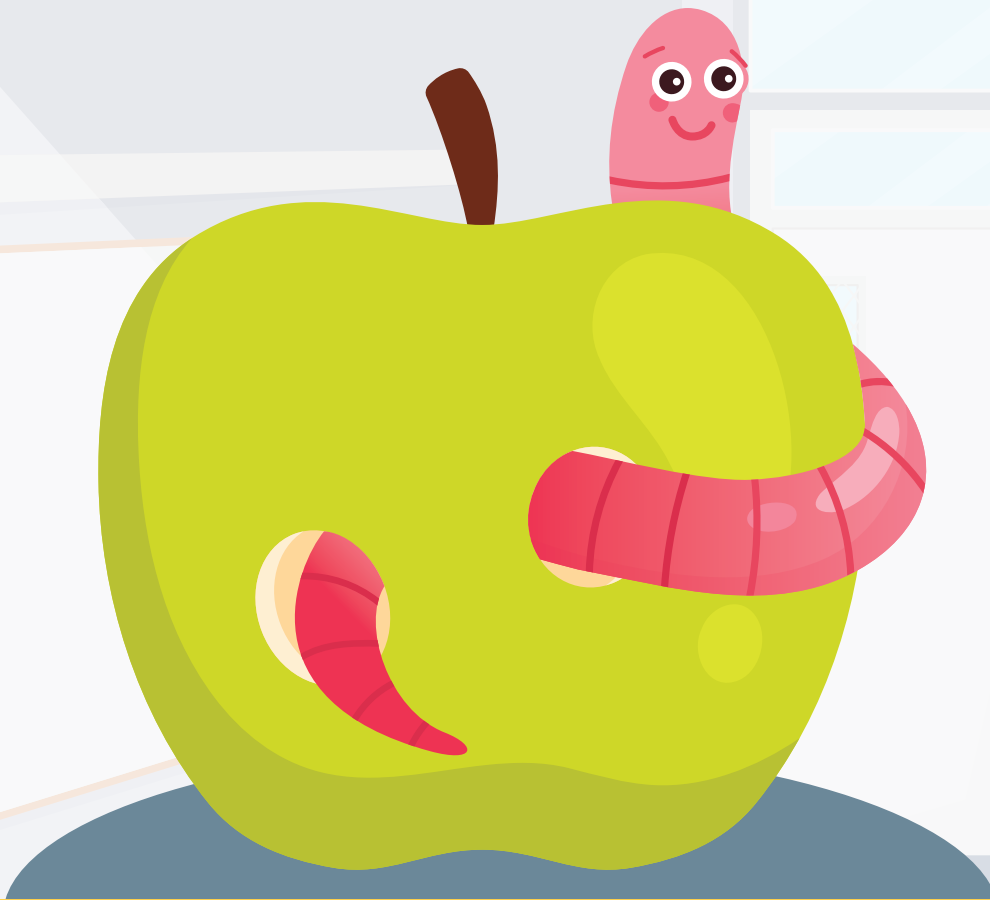

Integrate technology (use of digital software for visual learning, embedding videos and activities, video conferencing or webinars, etc)

Incorporate various teaching methods that include both formal and practical content to address learning needs and accomplish learning objectives

Develop both practical activities to enhance learning for the participants

Facilitate skills to promote learning, problem solving and behaviour change

Evaluate teaching methods and assess learning outcomes to improve for future teaching sessions

Collaborate with stakeholders to plan, create and implement education

Utilize a supportive learning environment that encourages feedback and self reflection to strengthen skills and practice

BENEFITS TO THE HOME

Build Strong Leadership & Confidence
Practical, Hands-On Learning
